Equipment Information:

Students who are using their own snow boards MUST have a leash. Pomerelle will NOT let you on the ski lift\mountain without one. They are available at any ski shop in town.

Providing this information is optional: In the event any equipment is stolen, you may fill this out so we can give it to the Sheriff's Department and to Pomerelle. In 2008, we had two boards and one pair of skis stolen in one night. Fortunately, the thieves were caught at the bottom of the Albion grade the same night and the equipment was recovered. Sometimes, students from other schools accidentally pick up the wrong equipment because it looks like theirs. We also suggest you take a picture of their equipment for your own records to make returning lost\stolen equipment much easier.
