Parking Directions

Where & how to park\unload

Parents should enter the driveway and park in the designated parking spaces as shown and not where the bus and the truck\trailer need to park.

Do NOT stop in the driveway area to unload as we want traffic to flow smoothly and not block anyone in.

Students should watch for cars when they bring their skis, board, bags, etc to the trailer. An adult will load it in the trailer for you.

Upon our Return

The truck and trailer will park so the bags can be unloaded onto the front sidewalk going into the school and the bus will pull in behind the trailer.

If anyone parks where we need to unload, please nicely ask them to move their vehicles for us.

We would REALLY appreciate it if some parents would help unload the trailer and place the equipment in nice rows on the sidewalk to speed things up.
